

Chant Engineering is the authorized North American distributor for Friedrich Hoeppe thimbles. We carry in stock the solid DIN 3091 Thimbles painted black to minimize rust. These high quality thimbles have been made by Friedrich Hoeppe in Germany for over 100 years.

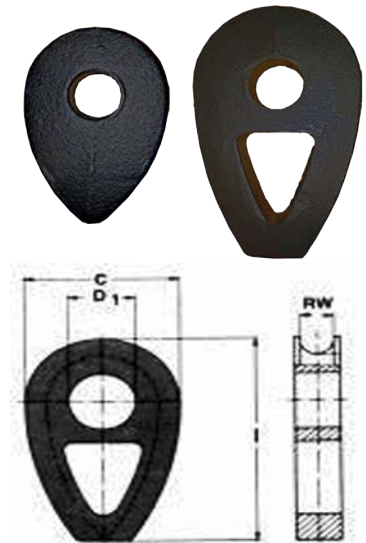

FRIEDRICH HÖPPE GmbH
High Quality Thimbles Made in Germany

The thimbles according to DIN 3091 are cast from GGG 40, not machined from a solid piece of steel. Custom hole sizing is available upon request.

Article #	Size	Groove Width mm (RW)	Standard Hole mm (D1)	Hole Drilled mm (D1)	Outside Width mm (C)	Outside Length mm (L)	Weight p/100 pcs kg
