## FOR IMMEDIATE RELEASE

### Chant Engineering receives the AWRF 2016 Platinum Safety Award

October 31, 2017

Chant Engineering Co. Inc. was presented the Associated Wire Rope Fabricator's (AWRF) Platinum Safety Award for its outstanding safety record during the year 2016 at the recent 2017 AWRF General Meeting and P.I.E. held in Minneapolis, MN. There are 4 levels to this award, Standard, Silver, Gold and Platinum. The AWRF Platinum Safety Award is given out to companies with a no accident safety record for seven consecutive years. Chant was one of nine companies who received the Platinum level award for 2016. Chant is an eleven time award winner and is pleased to have received AWRF's safety award since 2006.

Chant Engineering is extremely thankful that our manufacturing team members put safety first.

“We accept this safety award with great pride, as it comes from a leading organization that represents the wire rope industry. We always strive to provide our employees a safe work environment and customer's products that are safe to operate. We manufacture Chant products to an extremely high level of quality for superior performance. This AWRF Safety Award recognition totally reinforces our commitment to not only safety, but also excellence,” said Phil Chant, Chant's

President.
